

**Note: This product is distributed on a 'try-before-you-buy' basis. All features described in this documentation are enabled. The unregistered version outputs flash files with adding watermarks.**

## About Photo to FlashBook

Do you want to publish your photo collections as digital publications, like magazines, brochures and catalogues on web sites? Or if you want to impress your friends or family members with a stunning photo gallery look, FlashBook could be a good choice.

**Photo to FlashBook** provides page Sliding effect which is getting more and more popular among professional photographers, designers as well as photography amateurs who present their photo works online. With using Photo to FlashBook, you can create stunning online photo albums from your photo collections, and then enjoy the fresh and amazing view of a realistic photo album to share with your friends.

Besides, Photo to FlashBook can help to display relevant pages in animated flash. You can always show the before or the next photo page with current one in the flash booklet, so that the eBook visitors can compare and contrast the page content more easily and clearly. A-PDF to FlashBook also enables you to design your own style digital eBook. You can add proper or your favorite background image and sound, you can also auto play the flash booklet, read the eBook from right to left.

You can publish your photo collections as any type of publications, magazines, brochures and catalogues to web sites, email and even CD-ROM. Your new flash catalogs eBook is royalty-free. You do not need to pay any more to us no matter what your intended commercial use or personal use.

## **Detail features include:**

- Convert a collection of Images to side-by-side flash booklets.
- Output in 4 different formats: HTML, EXE, Zip and burn to CD.

Click "Settings" icon  to define Paper Size, Output Quality, Photo margin, Frame Size, Frame Opacity, etc.:

At last, click "Publish" icon  to enter into template setting interface.

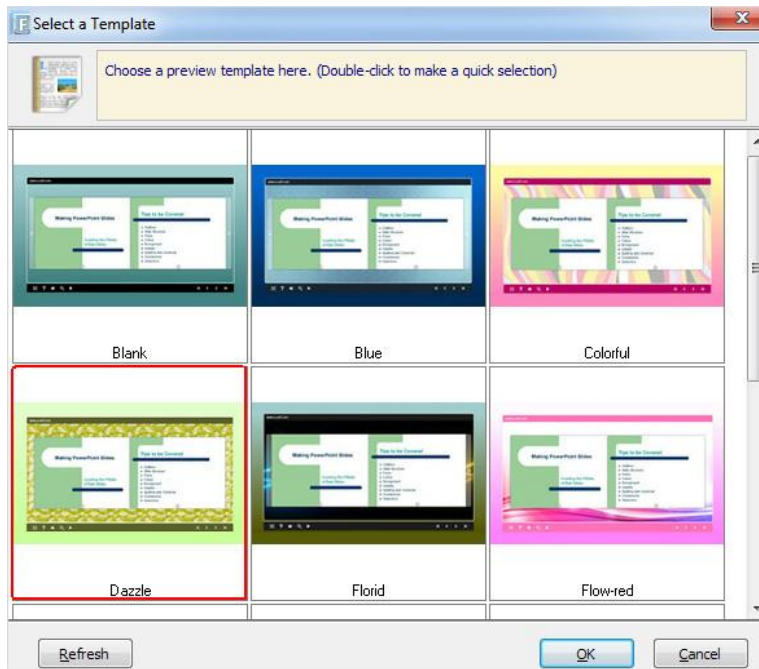

## II. Design Setting

The design setting interface contains below main parts: Choose Template; Tutorial Settings; Thumbnails; Sound; Bookmark; Flash Language and Flash Security Settings.

### 1. Choose Template

Click "Float" icon to select templates from below interface:

Click this icon is to save current settings as a TXT file for later uses;

Click this icon is to import stored setting file at once.

## 2. Tutorial Panel

<input type="checkbox"/> Tutorial	
Tutorial Title	www.a-pdf.com
Hide Page Frame Bar	No
Top Margin	10
Bottom Margin	10
Left Margin	60
Right Margin	60
Flash Window Color	<input type="checkbox"/> #5B5F2C
Page Background Color	<input type="checkbox"/> #FFFFFF
<input checked="" type="checkbox"/> Background Config	
RightToLeft	No
PageMove Time	1
PageRiseOrFallTime	0.5
Slide Interval	3
AutoPlay	No
LoopPlay	Yes

### (1) Tutorial Title

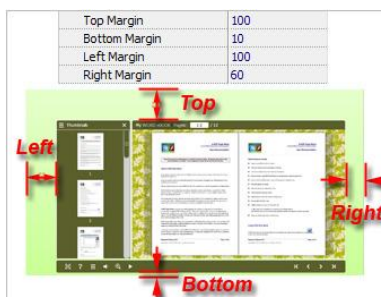

Customize tutorial title for showing on the top of your presentation.

### (2) Hide Page Frame Bar

If don't want to show the frame bar on the left or the right side of the pages, choose "Yes" in this option.

### (3) Top/ Bottom/ Left/ Right Margin:

#### (4) Flash Window Color

This color will be applied on all flash windows, such as the "Help" window, booklet window and so on.

#### (5) Page Background Color

When the page hasn't been loaded completely, it will show with the "Page Background Color" on the page.

#### (6) Background Config

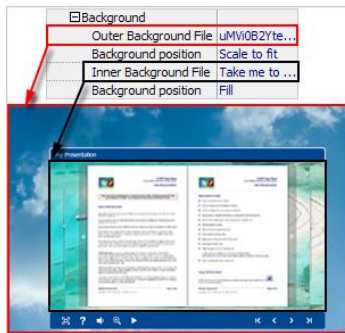

##### A. Background Color

Define Outer or Inner background for your flipbook with gradient color or pure color (the same color for "Gradient Color A" and "Gradient Color B"). Gradient Angle is the angle between the two colors.

##### B. Background Image

The template enables you to add two background images: Outer Image and Inner Image. You can make Inner background image to show special information, such as advertisement or company logo, etc. There are also 11 kinds of "Image Position" for you to choose: Scale to fit, Fill, Top Left, Top Center, Top Right, Middle Left, Middle Center, Middle Right, Bottom Left, Bottom Center and Bottom Right.

**(7) Right to Left**

If you want to show your presentations from right to left (such as Arabic language file), then choose "Yes" in "Right to Left" option:

**(8) Time Settings**

PageMove Time	1
PageRiseOrFallTime	0.5

Set PageMoveTime and PageRiseOrFall Time in seconds according to your needs. (Recommended second values are 1 and 0.5).

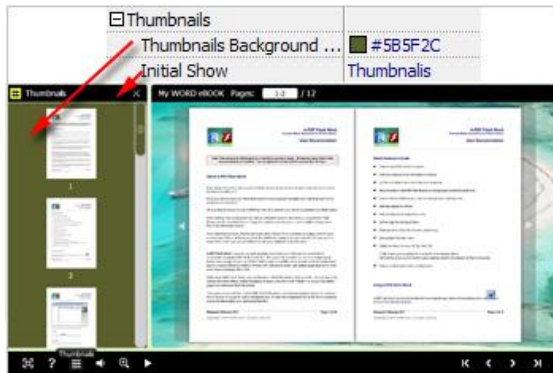

**(9) Auto and Loop Play**

Slide Interval	3
AutoPlay	Yes
LoopPlay	Yes

To auto play your slides, you can set "Yes" in "AutoPlay" option; then define the Slide Interval (seconds of staying on each page); you can also set "LoopPlay->Yes" to play the slides repeatedly (after clicking the Auto Flip button , the flipbooks will be flipped by staying 3 seconds per page).

### 3. Thumbnails

You will enable to show page thumbnails in output flash eBook too, and set panel color in "Thumbnails->Thumbnails Background Color". You can also show the thumbnails at the very beginning of opening your flash eBook, just set "Initial Show->Thumbnails".

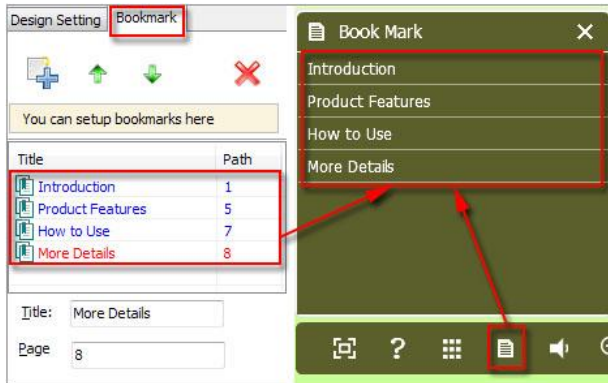

### 4. Sound Panel

Sound	
Sound File	Example 1...
Sound Loops	-1

If you want to add background sound to your flipbook, such as a song or other audio file, just choose "Sound File" from your computer, then set "Sound Loops", "-1" stands for playing the sound file all the time while viewing flipbook, other value (N>0) stands for the times of playing the sound file.

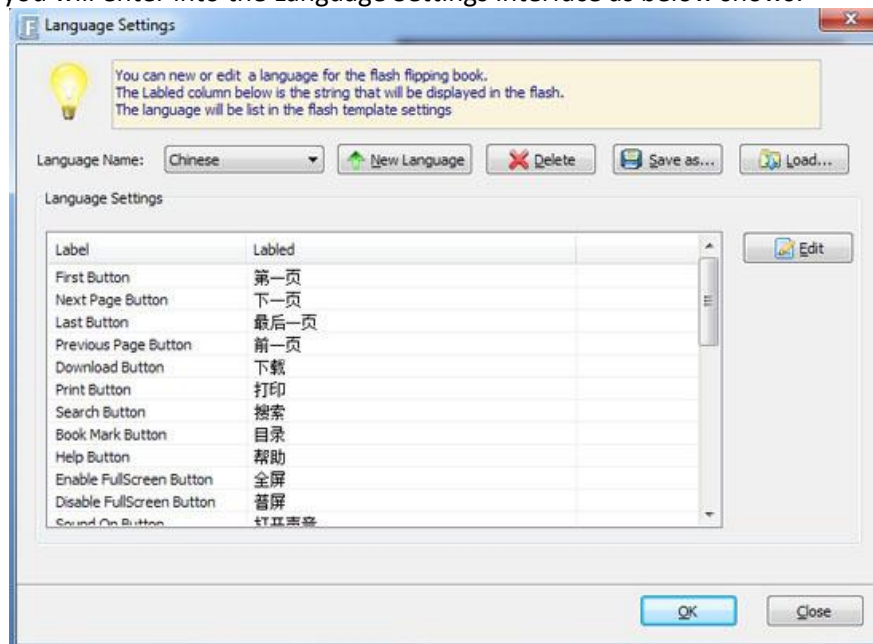

## 5. Bookmark

In "Bookmark" panel, you can add bookmarks here. Click "Add" icons and then input "Title" and "Page". When click the bookmark button, it will popup the bookmark panel immediately, and click on the bookmarks title, it will jump to the defined number page instantly.

## 6. Flash Language

You can set language for showing tools or tips in your created flash book. Click "Option->Flash Language", you will enter into the Language Settings interface as below shows:

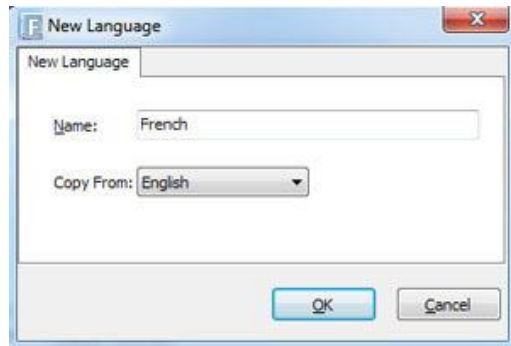

As the tips explaining, the "Labled" column lists the buttons and instructions on Flash books in defined language, and the program provides you 2 different languages for you to use: English and Chinese.

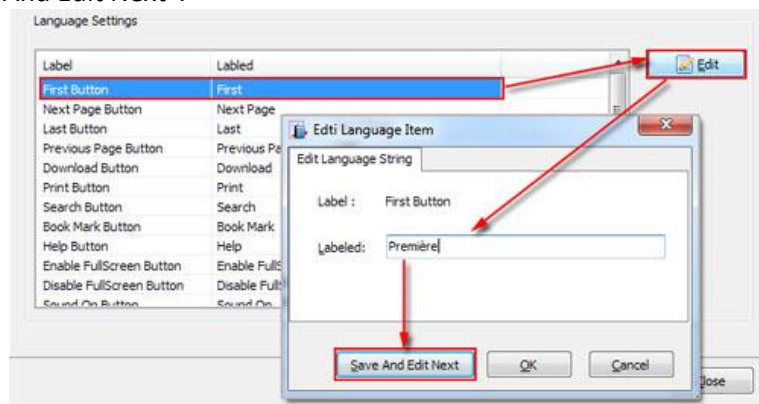

You can also add other language for your own uses:

1. Click the button  and define name for the new language:

Click "OK" to save the new language in the list;

2. Choose the first label and click "Edit" icon, define new language text in "Labeled" box, then click "Save And Edit Next":

3. At last, you can get all Labels translated into your new language as the images shows:

Label	Labled
First Button	Première
Next Page Button	Page suivante
Last Button	Dernière
Previous Page Button	Page précédente
Download Button	Télécharger
Print Button	Imprimer
Search Button	Rechercher
Book Mark Button	Réservez Mark
Help Button	Aide
Enable FullScreen Button	Activer FullScreen
Disable FullScreen Button	Désactiver FullScreen
Sound On Button	Le Sound

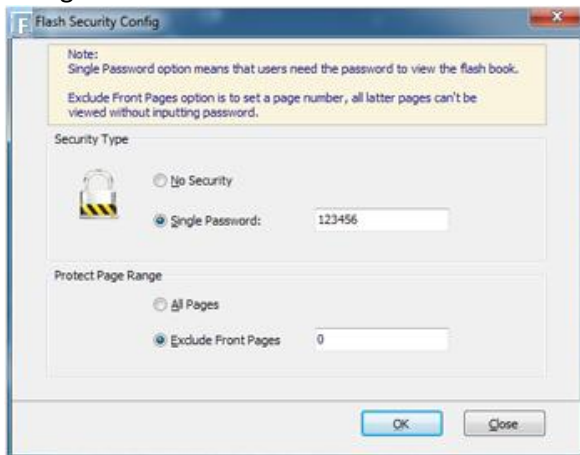

You can delete unwanted language: 

Or save your edited new language file as XML or TXT file: 

Load language file saving before for current using: 

## 7. Flash Security

If you want to protect your flash books with passwords, you can click "..." icon to enter into "Flash Security Config" interface:

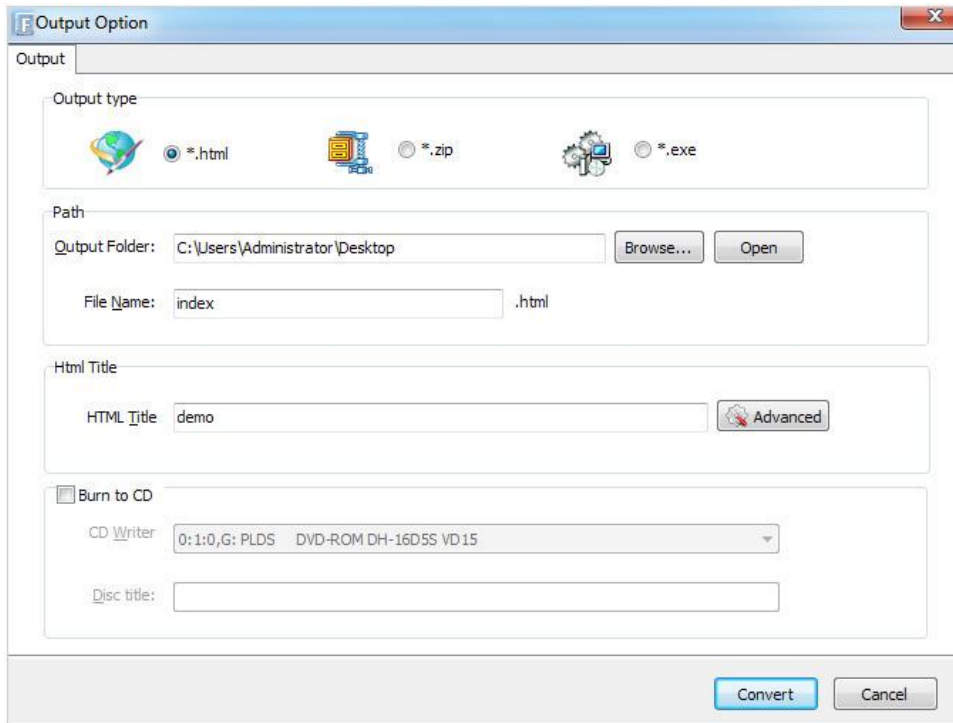

Select "Security Type->Single Password", and input passwords into the box (there is no restriction on password format at present). You can also set "Protect Page Range" as "All Pages" or the latter pages after a defined page number. (Tips: The program utilize RC4 algorithm to protect eBook pages, the eBook content pages will show nothing without permission.)

After settings template, click "Apply Change" button

## III. Output

Click "Convert to flash" button  to enter into output option interface:

Output types:

### 1. HTML

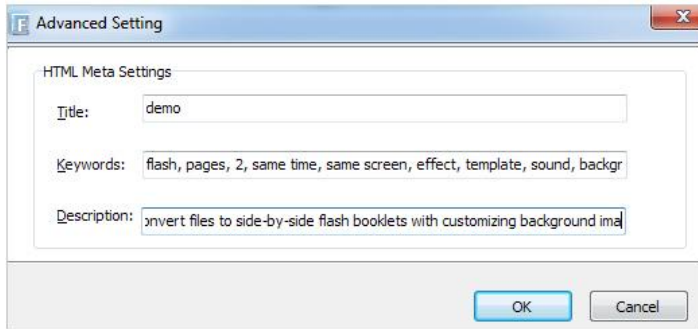

This output type is for uploading created flash booklets onto websites:

You can define HTML Title and other properties by clicking "Advanced" button:

Set Keywords and Description in the below interface:

You will get two separate files "HTML" and "SWF", a "files" folder under your defined path:

Double-click the HTML file to view your created flash presentation online.

If you want to show the Flash file on your website, make sure upload all these files under a same FTP path.

## 2. ZIP

This output type is for compressing the created files into an integral ZIP package which can be sending out as attachment directly. You can define HTML Advanced Settings by clicking "Advanced" icon: 

Your recipients just need to uncompress the ZIP file and then they can view the HTML flipbook instantly:

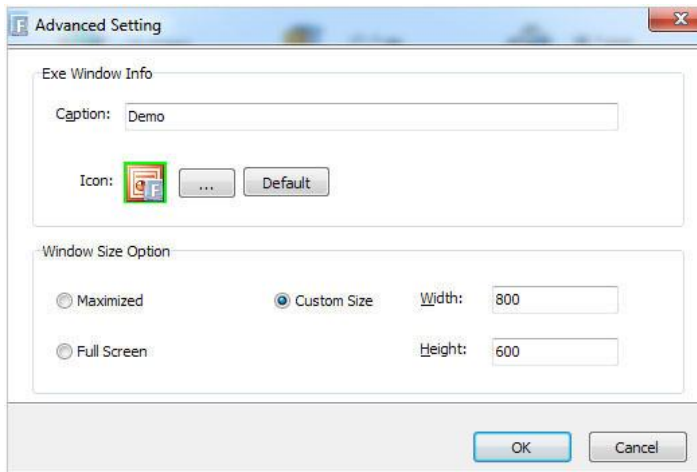

### 3. EXE

This type is for outputting flash presentation as a single executive file, easy storing and easy viewing:

You can also define Icon and Opening Window Size in Advanced Settings:

You can even **burn the output flipbook to CD**:

After choosing output type, then check the option "Burn to CD", set "CD Writer", define "Disc title", at last click  button to output flash presentation in your defined type.

## **At Last**

With Photo to FlashBook, you can easily collect images into a much more acceptable and popular Flash Album at once, with displaying two pages always at a time. The fresh new flash booklet look will definitely impress your friends and family members, and will attract more and more visitors to your websites.
